Cockpit

Cockpit

## That highly appreciated touch of vintage

Design by Lithoss

Cockpit offers the ultimate design solution for all your renovation projects. This 6-ampere two-way switch can be connected directly to your conventional installation. Cockpit is available in the well-known stylish Lithoss finishes, including the collection's bestseller Bronze Antique and public's favourite Gunpowder Black. Finishes that generate a striking effect in both traditional and ultramodern interiors.

The unique character of this cockpit switch is not only expressed in the handmade finishing but also in the matching toggles. The cone shape creates a classic and timeless look whereas the knurl shape gives your switch that highly appreciated touch of vintage.

OVERVIEW

Dimensions & wall boxes: see technical guide   ☞ **page 240 & 262**

STANDARD COLLECTION

European Standard
Our products are originally designed for the
standard European market using wallboxes with
a heart to heart distance of 71mm. In a response
to popular demand, Lithoss expanded its product
range to the Italian and British market by introducing
the Opera and Britannica frames.
BRITISH STANDARD

Fits only on a British Standard double and Italian
504E electrical wall box. Our European standard
collection is compatible with the single British
standard wall boxes.
Horizontal & vertical solutions.

117
OPERA

Designed for Italian Standard 503E and US single wall boxes.
Horizontal & vertical solutions.
